ZEUTSCHEL

TOUCH info POINT

Expand your (virtual) exhibition area by several 10.000 m²!

The TouchInfoPoint presents customized content in an interactive and intuitive way.
Create your very own presentation.
Thanks to its simple modular design, you can populate the system with images, videos or documents without any programming skills.

- ▶ low-cost entry into multimedia

- ▶ customized content, such as photos, videos or documents

- ▶ system maintenance without the necessary programming skills

- ▶ user-friendly and simple operation

- ▶ mobile and flexible use
  - ▸ complements a permanent exhibition
  - ▸ media station in a special exhibition
  - ▸ information terminal in the reception area

- ▶ customized system setup:
  - ▸ lectern, wall, table system

- ▶ perfectly integrates into your exhibition architecture

- ▶ durable hardware components avoid future service and repair costs
